

SAVE OUR PUD POOLS

Protect Our Community - Protect Our Home Values

Why This Matters

We bought our homes in a community with **17 pools**—a visible, material part of its layout, character, and appeal. Removing pools changes that permanently.

What's at stake?

- Property value and marketability
- Walkable access to shared amenities
- Community character and livability
- Fair and equitable treatment of all 601 homes
- Allowing a precedent of removing shared amenities, in some cases without even compensation

The proposal would:

- Permanently remove existing common amenities
- Reduce convenience and access for some homeowners
- Alter the established character of the PUD
- Proceed without objective, quantitative usage data
- Establish a precedent for continued future pool removals

If a few pools are removed today, where does it stop tomorrow?

Once removal begins, there is no clear limiting principle preventing further reductions — potentially even the elimination of all pools over time

Once common amenities are removed, the change is permanent

Take Action

- ✓ Vote NO on pool removal
